Traditional Shell Scheme

Traditional Shell Scheme is made from batton & plywood walls to which the fixing of exhibits is permitted using nails, screws, staples and pins from the fixing points.

Please note that excessive hammering, nailing and use of wallpapering or glue will incur a charge for damage. All stands will be checked for damage throughout the show. Any panels that are damaged will be charged at £60 per panel

The shell scheme comprises of 2740mm high panels with a 300mm deep timber box fascia which holds your company name board. The Fascia is supported by posts at each corner of the stand and internally along the lengths of larger stands.

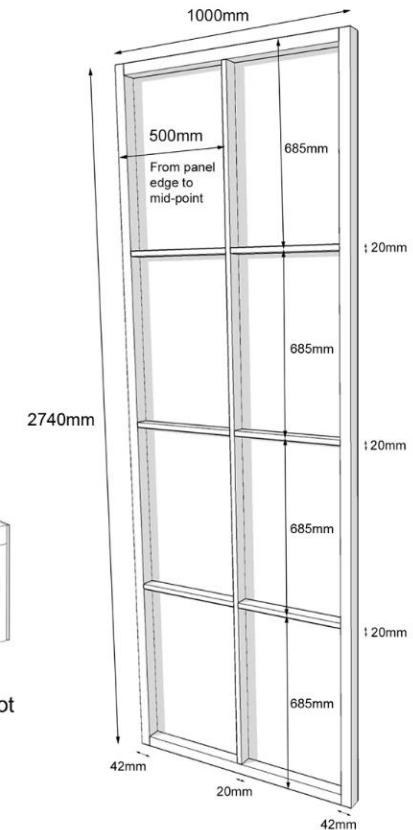

The specification of the shell scheme is as shown

STANDARD WIDTH BATTEN - fixes panels together at the top and the bottom.

The panel is clad both sides with 4mm plywood.

If you have anything heavier to hang or have further enquiries on the shell scheme or any other of our services, please do not hesitate to contact us.
